Sample Employee Handbook

Demonstration PDF for testing your local RAG document-ingestion pipeline

1. Vacation Policy

Full-time employees receive 15 days of paid vacation per calendar year after completing their first 90 days of employment. Vacation requests should be submitted to the employee's manager at least two weeks in advance. Approval depends on team coverage and business needs. Unused vacation does not automatically carry over to the next calendar year.

2. Information Security

Employees must use multi-factor authentication (MFA) when accessing company systems remotely. Company data must not be copied to personal cloud-storage accounts. Suspected phishing messages or accidental data disclosures must be reported to the Security Operations team promptly.

3. Remote Work

Employees may work remotely up to two days per week with manager approval. Employees working remotely are responsible for maintaining a private workspace and protecting company devices from unauthorized access.

4. Password Requirements

Passwords must be at least 14 characters long. Passwords must not be reused across company and personal services. Passwords should be stored only in the company-approved password manager; they must never be sent through email or chat.

5. Travel Reimbursement

Business travel expenses must be submitted within 30 days after the trip ends. Receipts are required for individual expenses of 25 dollars or more. Air travel should be booked in economy class unless a department vice president approves an exception.
